Did you consider trying google? Here, I'll help you:

<http://www.google.com/search?q=IDL+FITS>

Also, an IDL-specific search engine:

<http://www.astro.washington.edu/deutsch/idl/htmlhelp/index.html>

But you can even make google IDL-specific by adding "filetype:pro" to any query:

<http://www.google.com/search?q=IDL+FITS+filetype:pro>

And then, of course, there is the archives to this group...

-k.
