Subject: Re: plotting data as it arrives using objects Posted by clive_cook59 on Mon, 06 Jun 2005 20:24:48 GMT View Forum Message <> Reply to Message

I think that the problem with this technique might be that each time a new file is written the contour will have to be re-calculated and re-drawn which considering the data can be a large 3-d array (4000x452x452) could make the program slow. I have yet to test this so i am not completely sure.

thanks

Clive
