Hi,

I'm using Map\_Grid to draw some grid lines and a box on my image.  
There's a color keyword to define the color of the box and lines...

```
Map_Grid, color=black, Londel=2, Latdel=2, GLINESTYLE=2,$  
label=1,/noerase, box_axes=1
```

The problem is I want to use different colors in the grid lines and in  
the box. Is there some way to do that?

Thanks,

Cheers,  
Julio
