How to make barplot for [43,273] array? when Im using BAR\_PLOT it displays error:

```
c:\1\1.eps
```

```
% Keyword array parameter XTICKNAME must have from 1 to 60 elements.
```

```
% Execution halted at: BAR_PLOT      242
```

```
C:\RSI\IDL61\lib\bar_plot.pro
```

```
%           $MAIN$           56 D:\Egs\working_4.pro
```

What is wrong?How can I make barplot of array or vector grater than 60 elements?PLOT function doesnt have this problem...
