How to make barplot for [43,273] array? when Im using BAR\_PLOT it displays error:

c:\1\1.eps

% Keyword array parameter XTICKNAME must have from 1 to 60 elements.

% Execution halted at: BAR\_PLOT 242

C:\RSI\IDL61\lib\bar\_plot.pro

% \$MAIN\$ 56 D:\Egs\working\_4.pro

What is wrong?How can I make barplot of array or vector grater than 60 elements?PLOT function doesnt have this problem...
