Subject: Re: Windows IDL DLM with Cygwin
Posted by Haje Korth on Tue, 12 Jul 2005 12:49:09 GMT

Joey,
I tried that years ago, but was never successful. However, in the meantime
RSI has put out a TechTip on how to compile DLMs with cygwin. You should dig
that up and see if you find what you are doing wrong. I just got tired of
poking around to find a fix. You can spend a lot of time on this search. And
if it is really true that "time is money", my solution to get Visual Studio
is suddenly not that expensive...

Good luck,
Haje
