The Imperial College of Science, Technology, and Medicine Space and Atmospheric Physics (SPAT) group would like to announce the creation of a mirror of the IDL archives at boulder.colorado.edu. These archives contain IDL version 4 and can be accessed at:

<URL:ftp://crab.sp.ph.ic.ac.uk/idl> Direct to archive
<URL:http://crab.sp.ph.ic.ac.uk/> via SPAT home page

Please transfer files after working hours. This site is on SuperJanet. In general Space-related sites should find very good transfer rates.

best regards
Ata <()>.
