Subject: histograms in 2D Posted by Tim Lamont-Smith on Fri, 02 Sep 2005 10:05:04 GMT View Forum Message <> Reply to Message

I have some fairly sparse x-y scatter data, which I want to histogram. In other words, I want a lego style surface plot where the z-axis shows the frequency of the points in each x-y bin. Has anyone written a programme to do this before?

Maybe this is straightforward but hist-2d doesn't seem to be what I'm looking for.

Many thanks,

Tim
