Only if you're running 6.2:

```
{ x86 Win32 Windows Microsoft Windows 6.1.1 Oct 11 2004    32    64}
```

```
IDL> test_draw
```

```
** Structure WIDGET_DRAW, 12 tags, length=44, data length=37:
```

```
ID      LONG      4
TOP     LONG      3
HANDLER LONG      4
TYPE    INT       0
X       LONG     68
Y       LONG     59
PRESS   BYTE      2
RELEASE BYTE      0
CLICKS  LONG      1
MODIFIERS LONG     0
CH      BYTE      0
KEY     LONG      0
```

```
** Structure WIDGET_DRAW, 12 tags, length=44, data length=37:
```

```
ID      LONG      4
TOP     LONG      3
HANDLER LONG      4
TYPE    INT       1
X       LONG     68
Y       LONG     59
PRESS   BYTE      0
RELEASE BYTE      2
CLICKS  LONG      1
MODIFIERS LONG     0
CH      BYTE      0
KEY     LONG      0
```

You'll need an "if !version.release eq" until that bug gets squashed.
