To add a frustrating (for David) data point, xstretch works fine for me too.

OSX version is 10.4.2

IDL> print,!version

```
{ ppc darwin unix Mac OS X 6.2 Jun 20 2005    32    32}
```

I'm not sure what version of X11 and XFree86 I'm using.

cheers,
-henry
