Subject: about label direction in IDLgrContour...
Posted by jhshie@gmail.com on Tue, 10 Jan 2006 10:47:54 GMT

dear all,

I plot a contour via IDLgrContour, and add some labels on it.

My figure is here: http://www.flickr.com/photos/jhshie/84769123/.

However, the labels face the wrong direction.

How can I turn them over?

Thanks,
jhshie
