hi, all,

is it possible to disable widget timer event? yes, possible to avoid executing part of codes in timer event procedure. but for efficient consideration, is it possible to disable widget timer event like disable other events, say, something like

WIDGET_CONTROL, my_widget, DRAW_MOTION_EVENTS = 0

WIDGET_CONTROL, my_widget, Timer_Events= 1

WIDGET_CONTROL, my_widget, Timer_interval= 0.2

Am I asking to much from IDL?

Weihua
