Craig,

Why don't you write the definitive article on this topic,
giving all points of view, and I'll publish it and we will
be done with it for all time. :-)

Cheers,

David

P.S. There are some topics I rather enjoy recycling. (I miss
DEVICE, DECOMPOSED=0 very, very much.) But there are others
that just seem too tedious to go into. This one *definitely*
falls into that category for me. Although I do see the need for
an explanation. I just can't write it myself without barfing. :-(
