Hi YJP,

you want to use the POSITION and NOERASE keywords like

```
PLOT, xxx, yyy  
PLOT, xxx[100:200], yyy[100:200], $  
  /NOERASE,  
  /POSITION=[.1, .7, .3, .9]
```

Just play around with the position numbers to place the small plot
where you want to have it.

Cheers,

Peter
