Subject: Floats
Posted by Liberum on Wed, 08 Mar 2006 20:52:11 GMT

Hello,

Here is a silly question: Can I define a float array and control how
many decimal places are kept? For example, I want all values to only
have an accuracy to the nearest 100th (20.15 and not 20.154983445).
Kind of like in printing, you know, the f5.2 print definition, but only
for variables and arrrays.

Thanks,
Sheldon
