Hi guys!!

I would like to make some plots, but only with certain number shown in the x and y axis. Is there any clever command to do that in IDL ??

For example write only 3000, 3500, 4000, 4500 rather than 3100,3200,3300 etc

Or, example, to write 3000 in bigger size, 3500 in smaller, 4000 in bigger on so on ...

Thanks!

S.
