Subject: Re: IDL 6.2 Array Definition Question (Program code area full)
Posted by mshep on Wed, 19 Apr 2006 17:58:08 GMT

Hi Ken,

Thanks for the reply.

As I mentioned in a response to Reimar, the main question is why does
IDL place a limit on the amount of array elements being passed
explicitly?

As for the reason why I would like to do it, please refer to the perl
example I provided in my response to Reimar.

I could just write out the arrays in perl to a file and then read the
file in using IDL, but I would like to know why I cannot just pass them
using explicit arrays.

Thanks,
Mark
