David,

Yah!

IDL> print,!Version

{ ppc darwin unix Mac OS X 6.3 Mar 23 2006 32 64}

But I thought you were going to say, "Roses?"

I was thinking about that, too, but I am not sure I believe it is the source of the problem, because it is just this widget application out of the bazillions I fell like I have done just this way before. I am pretty sure that I have frigged things up all on my own.

Ben
