
Subject: IDL syntax coloring for BBEdit and TextWrangler
Posted by [Kenneth P. Bowman](#) on Thu, 20 Jul 2006 19:47:01 GMT

Will Powell was kind enough to send me his syntax-coloring definitions for use with the Mac OS X editors BBEdit and TextWrangler (from barebones.com).

I have put the file on my downloads page

<http://idl.tamu.edu/downloads.php>

with brief instructions. The functionality is not complete, so improvements are welcome.

Cheers, Ken Bowman
