Subject: "IDL Programming Techniques: 2nd Ed" accompanying files
Posted by Nikki Bloms on Tue, 01 Aug 2006 14:27:18 GMT

Hi All,

I've recently purchased David Fanning's 2nd edition of "IDL Programming
Techniques" and am trying to download the accompanying files from the
website, to no avail. The anonymous ftp times out and the zip file link
shows a "page cannot be displayed". A "save target as" has also been
tried but this "operation has timed out".

I was wondering if anyone had these files downloaded already and posted
in another webiste?

I'd like to jump into this book I've heard/read so much about, but
doing so without these files is a bit disappointing.

Thanks in advance,
Nikki
