Introducing IDL Analyst - The Premium Version of IDL

The Web download is now available!

IDL Analyst integrates the mathematical and statistical routines of the

analysis capabilities of IDL to deliver a new, premium version of IDL.

Now, IDL users can add even more analysis capability to IDL
applications. In addition to all the existing capabilities of IDL,
science and engineering professionals can access 185 proven algorithms
and routines from within the IDL environment, including:

Mathematical Functions - such as linear systems, interpolation and
approximation, differential equations, transforms, and more.

Statistical Functions - such as regression, basic statistics,
correlation and covariance, time series and forecasting and more.

INTRODUCTORY OFFER - Current IDL 6.3 users who want to upgrade to IDL
Analyst can do so for a limited time for as little as $995.

For more information or to download IDL Analyst, visit
www.ittvis.com/IDL/Analyst.
