Subject: Family Therapy!?

Folks,

I just had occasion to pull up my book reference on Amazon.
You know how Amazon always provides helpful hints for other
books you might want to read? I was told that customers who
viewed this item also viewed these books...and there were books
by Liam, and Ronn, and Ken, the people you would expect. But there
was also a book called _Family Therapy: Concepts and Methods_.

I don't know exactly what this means, but it can't be
good news. :-(

Cheers,

David
