Subject: looking for procedure call graph utilty Posted by JeremyFaden on Fri, 15 Sep 2006 02:11:00 GMT View Forum Message <> Reply to Message

I'm trying to support IDL runtime, and I'd love to have a utility that would show the procedure call graph for my software (the sort with boxes and arrows showing the interdependence between routines). Does anyone know if such a utility exists already?

Thanks in advance! Jeremy
