Looks to me like you don't have all the files you need
from the Coyote Library. Or, at the very least, they
aren't on your path. You can find the files you need
here:

Even if you have the files, I'd download new copies.
I just got back from a class, so there have been
file updates. (And to two of my most useful programs,
also, TVREAD and XCOLORS.)

Cheers,

David
