Oh, that's a dead mailbox, the proper address is in the sig. But no
matter, got your address, I'll zip the library and email it to you.
      I would love to have the newer version, this could save a bunch
> of time
      of me reinventing a perfectly good wheel.

   My Display_mm will do these things. Unfortunately, even though I
   forwarded ti RSI (sorry, ITT) an updated version of my library (called
>> MIDL_LIB) few months ago, their user contributions page still provides
>> only the older version of the library, from 2002 (which lacks
   Display mm). If you want a newer version you'll have to contact me.
