Subject: Martin Shultz's MSG_GUI
Posted by G_Marquez on Thu, 30 Nov 2006 00:56:07 GMT

I noticed that Martin's last post to this group seemed to be in 2001
and his website has not been updated nor does archive.org carry it
anymore. Guess I'm coming to the party a bit late.

Has anyone heard from him lately and if so, does anyone know where I
can take a look at his brilliant work with IDL GUI's? If not, well, I
hope all is well with him.

Many thanks

Gabriel Marquez
lowly student and IDL hacker
