> Where could these resources possibly be getting set????

Found it!!!

It was in a file that came with the IDL 6.3 distribution:

.../idl_6.3/resource/X11/lib/X11/app-defaults/Idl

contained the following lines

```
Idl.graphicsWindowWidth:    640
Idl.graphicsWindowHeight:  512
Idl.graphicsWindow14Screen: True
```

I commented those lines out and the problem was solved. Thanks Allan for pointing me in the right direction.

ITT please take note.
