Subject: Printing Graphic or saving graphic
Posted by rpertaub@gmail.com on Fri, 23 Mar 2007 13:44:42 GMT

Hello,
I wrote a program that does some processing to an image, and then
makes a histogram. Except I have 20 images to look at and compare
their histograms. I can run the program 20 times, however, how do I
save or print the histogram so I can compare them?

Thanks!
Radha
