Subject: problem with idl database Posted by stin.wang on Sat, 28 Apr 2007 02:55:12 GMT View Forum Message <> Reply to Message

hi everyone, i have some problem with idl dababase

i am working on some meteorological data which store in a mssql server.

so i use idldabase connect the database, then use idldbrecordset to get desired table.

but something happen. because in my original table ,some record name is in chinese. when i process this data, it say something like that

\$MAIN\$

it seem like that the record name must be english. can anyone help my exlain this? or find a way to solve this problem?
