I want to do something which I'm sure is very simple. I have an array such as:  0 0 0 0 0 0 0 0 0 0 and want to add a similar array to get  0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0	Subject: How do I add an array to the end of an existing array? $\begin{array}{c} 0\ 0\\ 0\ 0\\ 0\ 0\\ 0\ 0\\ 0\ 0\\ \end{array}$ so that I preserve the number of dimensions. Eg go from A=(2,3) to A=(2,6)   Cheers,	0 0
$\begin{array}{c} 0\ 0\\ 0\ 0\\ 0\ 0\\ 0\ 0\\ \end{array}$ so that I preserve the number of dimensions. Eg go from A=(2,3) to A=(2,6)	and want to add a similar array to get
A=(2,6) Cheers,	0 0 0 0 0 0 0 0
