chamoua> with GNU Emacs (like cc-mode.tar.gz but for Wave and IDL) Any
chamoua> FTP site ?

Try the following for idl.el a GNU Emacs editing mode for IDL code.
This is version 1.28.

```
:: ftp://fermi.jhuapl.edu/pub/idl_emacs/idl.el  
:: ftp://eos.crseo.ucsb.edu/pub/idl/idl.el.Z
```

You can also obtain idl-shell.el which runs IDL version 4 inside an emacs buffer as a subprocess. This is version 2.2 (versions before 2.0 are for IDL versions earlier then 4.0).

```
:: ftp://fermi.jhuapl.edu/pub/idl_emacs/idl-shell.el  
:: ftp://eos.crseo.ucsb.edu/pub/idl/idl-shell.el.Z
```

If you have comments, suggestions or bug reports regarding idl.el or idl-shell.el please let me know.

Thanks,

Chris
