Subject: julday() and fractional days Posted by MarioIncandenza on Wed, 31 Oct 2007 00:02:31 GMT View Forum Message <> Reply to Message

OK, if you search c.l.i-p for this you'll find a post from Craig Markwardt wherein he laments that JULDAY "doesn't handle fractional days". Someone replies to say yes it does, but I think that person misunderstood.

IDL> print,julday(12,31,2005,0,0,0) 2453735.5 IDL> print,julday(12,31.2,2005,0,0,0) 2453735.5

I'm really unhappy with IDL right now.
