---

but if i do that

```
data=ENVI_GET_DATA(fid=fid,dims=[-1,0,t_ns-1,0,t_nl-1] ,pos=0)
```

```
data=REVERSE(data,2)
```

```
ENVI_ENTER_DATA,data,r_fid=ofid
```

the layer is flipped vertically i dont want that

look at this image iusting my problem

all seems good the left image dont need to be flipped

but look at the cursor location value
