Hi there...

I'd like to know if I can use WRITE_SILK to save float and string data together.

Suppose I have tw arrays:

```
a=[1.2, 2.3, 4.5, 2.1]
```

```
b=['a', 'b', 'c', 'd']
```

Is it possible to join these arrays in one file using WRITE_SILK??

Thanks!

Julio
