Hi people,

I have a matrix with dimensions(600 x 250) and I draw it using IDLgrImage.

Then I want to put the hours in the x Axis,, from (0:00 to 24:00)..
How can i do this ?

My IDlgrAxis has a range=[0,600]...

I have the same problem for the y Axis. It has range=[0,250] and I want to put height in Km from (0 to 10.5)..

thanks a lot people !!!!!
