Subject: Re: Multi-plot error. Could anyone help me?
Posted by Brian Larsen on Sun, 18 Nov 2007 16:20:31 GMT

I am running out so I don't have time to really test this but I think
the issue is that you need to add /noerase to map_set otherwise it
erases the screen (or in ps starts a new page)

 MAP_SET, 90.0, 180.0, /STEREOGRAPHIC,/NOBORDER
needs to become
 MAP_SET, 90.0, 180.0, /STEREOGRAPHIC,/NOBORDER, /noerase

Does this help?

Cheers,

Brian
