Subject: Windows command-line: why not? Posted by Vince Hradil on Thu, 06 Dec 2007 18:59:05 GMT View Forum Message <> Reply to Message

Does anyone know the real reason that there is no windows commandline?

- 1-technical difficulties I'm not that familiar with the windows api
- 2-marketing issues they want everyone to conform to the IDLDE
- 3-ITT-VIS doesn't perceive a need (maybe they will now)
- 4-Other?
