sorry a type error but nothing change when i use FMTp for both
(FMT is quite similar)

```
function read_local ,file
FMT=
'(I5,2X,D13.8,2X,D13.8,3X,F8.2,3X,F8.2,3X,F7.2,3X,F7.2,3X,F6
.2,3X,F6.2,3X,F6.2,3X,F6.2,4X,F6.2,3X,F6.2,3X,F6.2,2X,F6.2)'
spawn, ['wc', '-', file], result, /noshell
nlines = long(result(0))
ttab = MAKE_ARRAY(nlines-5,15,/DOUBLE)
OPENR,1,file
line=""
readf,1,line
for i=1,nlines-5 do begin
  READF,1,FORMAT=FMT, n,ra,dec, l1,l2,l3,l4,l5,l6,l7,l8,l9,l10,l11,l12
  ttab[i-1,0]=n & ttab[i-1,1]=ra & ttab[i-1,2]=dec
  ttab[i-1,3]=l1 & ttab[i-1,4]=l2 & ttab[i-1,5]=l3
  ttab[i-1,6]=l4 & ttab[i-1,7]=l5 & ttab[i-1,8]=l6
  ttab[i-1,9]=l7 & ttab[i-1,10]=l8 & ttab[i-1,11]=l9
  ttab[i-1,12]=l10 & ttab[i-1,13]=l11 & ttab[i-1,14]=l12
endfor
CLOSE , 1
print,FORMAT=FMT,ttab[0,*]
RETURN,ttab
end
```
