Well, since there is money to be made, and I'm interested in
doubling the 10 bucks I've made on my Installing Subversion
Guide, I thought I would have a go at this. But, frankly,
I can't find the darn thing either. I've searched the ITTVIS
web page, and I've even tried searching though the Workshop
update service, but absolutely no luck whatsoever. :-(

Cheers,

David

P.S. If you want to try Subversion, though, I think I
can point out how to spend $5 wisely. :-)
