```
: IDL> .run correl_o.pro
:           corrmatrix = correl_images( image_A, image_B, XOFF=xoff, YOFF=yoff,$
:                                     ^
: % Syntax error.
: At: correl_o.pro, Line 72
:           corrmatrix = correl_images( image_A, image_B, XOFF=xoff, YOFF=yoff,$
:                                     ^
:
```

Since you continued the line with \$, the error is probably in the continuation of this line.
