
Subject: Reducing the plot area

I successfully generate a chart on a GIF file.
But I would like to reduce by 10 or 20% the size of the
graphic generated.

How can I do that ?

I use:

```
...  
set_plot, 'X'  
...  
window,/free,title='Bar Graph',/PIXMAP ;; create a window  
...  
plot,  
...  
;; write out to gif file  
img=tvrd()  
write_gif,...,img
```

Thank you
Thierry
