.evf files seem to be ENVI vector files, Reimar.

Luis: as I don't have ENVI, I can't tell if this will be any use, but take a look at:

<http://www.itvis.com/codebank/search.asp?FID=93>

for a programme that converts these to ROIs written by David Gorodetzky. I don't know, maybe they'll be converted to IDLanRol objects for you.

Good luck!

Chris
