## Subject: Need GOES Image Expert Posted by David Fanning on Mon, 17 Mar 2008 20:32:29 GMT View Forum Message <> Reply to Message

Folks,

A quick question for a GOES image expert. Are the GOES satellite images, such as can be found here:

http://goes.gsfc.nasa.gov/goeseast-lzw/peru/

in some kind of map projection? Where can I learn about these images? The GOES folks don't seem to be making this information obvious. :-(

Cheers,

David
