Hello,

I am a student in Marine Sciences Research Center, State University of New York. I use IDL at work and also have a Macintosh Power PC at home.

I would like to do some of my work at home specially the plots given the pressure of many people to use the machine at work.

If anyone has the old IDL 3.6 for a Power PC which they do not use I would like to purchase it. I do not need the manuals. I can pay upto \$150 for this. Shows how desperate I am for a IDL Power PC version to run at home. Its coming out of my student stipend and not any research budget.

You could call me at 516-632-2403 before 8:30 am or after 11:30 pm Eastern Time on weekdays or send me an e-mail.

Thank You.

Barr-Kum
