Subject: Re: Does the ENVI_SVM_DOIT function have memory leak problem?
Posted by Neve on Thu, 03 Apr 2008 08:52:13 GMT

Pete,
The error you descibed is just the same one I wanted to say. It
happens when the memory is used up, right?
I am now 99% sure that it's caused by the envi_svm_doit function,
since I have ruled out all the possible causes I could image.
Maybe we should report this problem to the ENVI techinic team and
count on them to solve it. ;)
All the Best,
Neve
