Well, I think "vanishes" in the sense my wife usually means it, in that she doesn't see it anymore because it's gone behind some other window. I would say that it is "hidden," as in a game of Hide and Seek.

Oh, well, this is the right solution, then, to the wrong problem. In any case, I don't think it is likely to help you solve this one.

I guess. I'd look at this fresh in the morning. I'll bet it looks different then. ;-)

Cheers,

David
