Clive, the number of zeros after the decimal point is set so that they all are the same length... but that you knew. I don't know how to change that other than specifying them yourself with ytickname.

Another option (but not what you wanted) is logticks_exp from this post:

http://groups.google.com/group/comp.lang.idl-pvwave/browse_frm/thread/fb4d6ebe49a3b073/49f61fc123ab9c1b?lnk=gst&q=logticks_exp

Cheers,

Brian
