Hi~ all , has anyone ever use the tvimage procedure wriitten by David ? When I tried to use it . It reminds me that there are erros in these two lines:

```
% Compiled module: TVIMAGE_ERROR.
```

```
        Erase, Color=FSC_Color(background,BREWER=brewer)
```

```
^
```

```
% Syntax error.
```

```
        IF Size(acolor, /TNAME) EQ 'STRING' THEN acolor =  
FSC_COLOR(acolor, BREWER=brewer)
```

```
^
```

Thanks~
