Fortunately I got some good suggestions offline, of which the most useful to me were

<http://www.msi.umn.edu/software/idl/tutorial/>

<http://xweb.geos.ed.ac.uk/~hcp/notes/notes.html>

http://nstx.pppl.gov/nstx/Software/IDL/idl_intro.html

I shoulda googled

+ IDL introduction

instead of

- IDL beginner OR guide OR tutorial
