Hi~ Everyone~

I got a question here about matrix,

I created a 3 dimensional array which is 2*3* 4 in C and the read it out using IDL. I found the index of these numbers are different , just like this :

C	IDL
1,1 ,1	1,2,2
1, 2, 2	0, 2, 3
1, 1,3	1, 0,3
0,1,2	0, 0, 1
0 ,0 ,3	1, 1, 0
1,1 ,2	0,0 ,3

Do can have any ideas how can I put then in the right order in Idl?

Thank u~~ :)
